Get Paid Faster! Use *FastAttach*® for Electronic Claim Attachments.

What is the *FastAttach* service?

FastAttach from NEA Powered by Vyne is a HITRUST CSF Certified solution for submitting electronic claim attachments and supporting documentation required for claim adjudication. The *FastAttach* software eliminates manual, paper-based processes related to requests for supporting claim documentation and enhances denial tracking for dental providers.

Improve claim adjudication times & get the revenue cycle flowing by electronically transmitting:

- Supporting documentation like X-rays, perio charts, EOBs, narratives
- Pre-treatment estimates
- Secondary insurance information
- Any other documentation required to adjudicate a dental claim.

The *FastAttach* software is an encrypted, Internet based solution that is available on-premise or cloud-based for maximum convenience and compatibility. The *FastAttach* software interfaces with most major dental practice management systems and leading clearinghouses to further streamline your practice's workflow.

How does the *FastAttach* software work?

The *FastAttach* software is easy to setup and use. Once a request is received for additional documentation:

1. **Import**, upload, scan or capture the image using our patented *FastKapture*® app for iOS® and Android®.
2. **Attach** it to the electronic request using the *FastAttach* software.
3. **Transmit** the image to the NEA repository and NEA immediately sends a report back to you with an NEA Tracking Number for each file.

4. **Place** the NEA Tracking Number in the remarks or NTE section of the claim.
5. **Send** the claim electronically through your claims clearinghouse.

Easily attach X-rays or other required supporting documentation.

Easy to Use & Access

- Simple, easy to read screens
- 24/7 secure, online access to your images
- Enables image sharing with other providers
- Works well for solo offices, multiple locations, multi-specialty clinics and more.

FastAttach Web provides a cloud-based option for claim attachments

If you're using a cloud-based practice management system or clearinghouse you have the option of creating and managing claim attachments directly from the **FastAttach Web** portal. *FastAttach Web* is a secure web portal that offers both account management tools and web-based attachment creation and submission capabilities. Best of all, there's no added charge to use the web portal service.

The *FastAttach Web Dashboard* provides a single location to view all attachment activity and serves as the launching point for other web-based tools including *FastLook*.

Users of the *FastAttach* desktop software can easily access the *FastAttach Web* via “Online Features.” The *FastAttach Web* service provides users with a Dashboard for viewing all attachment activity as well as another convenient way to create, view, edit, and send attachments. There’s also a message center to view and send messages to payers and other providers in the NEA network.

Easily view payer requirements

Another feature of the *FastAttach Web* service is **FastLook™**, part of the Health Plan lookup tool. The *FastLook* feature provides payer IDs, contact information and attachment requirements. Using the *FastLook* service, providers can search by payer name and procedure code to determine if an attachment needs to be sent and all associated attachment requirements.

Start sending **unlimited claim attachments electronically** to over 750 dental plans and payers using the **FastAttach** service and get the exclusive **Vyne Connect encrypted email service** - all for only **\$39 per month per office location***!

Communicate with confidence using **Vyne Connect encrypted email**

Did you know that sending emails that contain Protected Health Information (PHI) without using an encrypted email service could put you at risk for HIPAA violations and could even make your business a prime target for a cyber security breach?

NEA is attuned to your compliance needs. That’s why *FastAttach* subscriptions also include access to our exclusive **Vyne Connect™** encrypted email service. Improve the security of communications you send patients, payers and other providers by using *Vyne Connect*. It’s simple to use and works with your existing email service - no need to setup new email accounts.
